

# ENGSOc Wireless Network Survey

---

---

Please return by February 1<sup>st</sup>, 2004.

The EngSoc Project has recently received funding for several 802.11g wireless access points from CUESEF. The goal of this survey is to determine how the student body of Carleton Engineering would find the devices most useful.

Stream: \_\_\_\_\_ Year: \_\_\_\_\_

Do you own or have access to a laptop or portable computing device?

Yes  No

If **yes**, is this device wireless-enabled?

Yes  No

If **no**, and wireless network access was freely and easily available in all classrooms, would you consider obtaining one?

Yes  No

Do you think you would make use of a wireless network?

Yes  No

Do you think a freely available wireless network would improve the academic environment and/or student life?

Yes  No

In what rooms/floors would you most like to see wireless access points installed around Minto/Mackenzie?

\_\_\_\_\_

Do you think the wireless network devices will affect how we learn in the near future?

Yes  No

Comments? \_\_\_\_\_
